Message From the Chief

The Winchester Police Department stands at an important moment in our history — a moment where reflection, collaboration, and purposeful action come together to shape our future. On September 17, 2025, representatives from across our organization came together to participate in a Strategic Planning session designed to guide the department over the next three years. This effort reflects our shared commitment to strengthening our service to the community, supporting our personnel, and building a culture rooted in professionalism, trust, and unity.

During this session, our team identified the core values that define who we are, developed a mission statement that reflects our purpose, and created a vision for where we want to be by 2028. We also took an honest look at our current reality — the strengths we can build upon and the challenges we must address.

Our core values — Compassion, Accountability, Loyalty, and Integrity (CALI) — are the foundation of this plan. They guide our decisions, our interactions, and our commitment to each other and to the community we serve. These values are not simply words on paper; they are expectations for how we operate every day.

Our mission affirms that we are dedicated to providing safety and service with uncompromising compassion, accountability, loyalty, and integrity. Our three-year vision challenges us to become a premier law enforcement agency — one that recruits and retains diverse, highly trained professionals; maintains strong resources and support systems; fosters a healthy and stable work environment; earns the trust of our community; and ensures Winchester remains a safe place to live, work, and visit.

The current reality assessment conducted by our planning group highlighted both opportunities and obstacles. We recognized strengths such as strong community interactions, loyalty to the job, and positive new leadership. We also acknowledged challenges including retention, training investment, staffing pressures, and the pace of technological change. Understanding these realities allows us to focus our efforts where they will have the greatest impact.

From this work, three strategic directions emerged to guide our progress:

1. Develop a culture that promotes commitment to the mission and demands accountability.
2. Focus on recruitment, retention, and development.
3. Be recognized by the community as supportive and trustworthy by providing necessary services.

This Strategic Plan is more than a document — it is a commitment. A commitment to our community, to our profession, and to each other. It reflects the dedication of the men and women who serve this department and the shared belief that we can always improve, always grow, and always strive to be better.

I am proud of the work that went into this plan and confident in the direction it sets for our future. Together, we will continue building a department that embodies our values, supports its people, and earns the trust of those we serve.
